

Hello!

My name is Aina Hustveit and I am currently in 4th grade of building technique and architecture and I just love the student life in Ås and at REALTEK. I have since day one engaged myself in lots of things on both campus and at Samfunnet, and with this I am running for election for female student representative to the faculty board of REALTEK. I am a person you can trust, a great listener, someone who sees things from different perspectives, not afraid to speak up, someone that stands for what I say and do, and someone who would appreciate your vote in the election.

If I get elected female student representative to the faculty board, I will work towards making TF a great place to be for all the students in REALTEK, a good solution to fixed seats when writing a master, good solutions for lectures and exams now post corona, that the strategy of REALTEK is followed up and builds around sustainability and everything else we students find fit to fight for.

I am well familiar with the student politics in the faculty student council through my positions as class representative, former student parliament representative and now student representative in both "undervisningsutvalget" and "forskningsutvalget". In addition, I have a lot of experience from other different boards like Fagverket, 4H and a youth-club. I have also since my first semester been very active at Samfunnet as responsible for the entrance at partynights and now as KS Linticket, and also for UKA i Ås as NK (2018) and KS (2020) ticket –and effekt manager.

I would like to apologize for my grammar, and I hope you understood what I wanted to convey.

Happy election!

Aina Hustveit
