

Candidacy for Faculty board, KBM

My name is Iben Lund Johansen, I am 23 years old and studying my 4.th year at Chemistry and biotechnology. I am running for re-election as a female representative on the faculty board.

I have been active in the student community throughout my studies, including in the student council, social studies group, UKE volunteer and the recommendation committee for the dean. This has been rewarding and varied positions, which has given me a good knowledge of student politics at NMBU.

I am now the student council leader at KBM, a position that has given me insight into several KBM students' everyday lives and challenges, and I would like to continue working on this. Through the faculty board, I want to be a clear voice to ensure KBM students the best possible study time further.

I hope I get the opportunity to be a student representative on the faculty board.
