

Candidate faculty board  
NMBU Business School

Dear students at the Business School!

My name is Emiline Frantzen and I hereby wish to stand for re-election as a student representative on the faculty board. I am 21 years old and am in my third year of a bachelor's degree in economics and administration.

I have now had the pleasure of sitting two terms in office. Here I have learned a lot about promoting the students' perspective when it comes to issues and the faculty's strategy for preparing everyday study. I want to share the students' opinion to the board and stand up for the issues that concern us. This autumn I also sat as leader of the student council and it was a great way to improve communication with the students and get feedback on what the students want.

It is important that the faculty offers a good environment and high academic quality of the study programs, also now with a new bachelor's program in economics, management and IT. I have a lot of engagement and hope for your trust to continue as a representative on the board.

Good choice!
